**PROTECT YOUR PRINTERS DURING WASHDOWNS**

WD-3OOO
Washdown Enclosure

washdown printer enclosure for manufacturing environments

During normal use, the WD-3000 provides easy access to product labels through a small label door which is its only opening. When not in use, the door seals tight to protect the printer from harsh environments. A single latch allows easy access to the entire printer in seconds, which expedites the label changing process and facilitates high throughput.

FEATURES

- Adjustable Feet: Four anti-skid feet provide easy leveling alignment and make cleaning easier.
- Cable Entry: Cables can be fed into the enclosure without removing their connectors.
- Label Access Door: Fastened with thumbscrews, swings clear for operation.
- Easy Printer Access: A single latch provides easy access for installation, service, or label changes.
- Environment - Suitable for Complete Water Washdown

MATERIALS

- Stainless Steel, Delrin, ABS Acrylic face, black powder coated latch

COMPATABILITY

- Honeywell - Datamax I Class
- Can be adapted for use with other printers such as Intermec PM43A

OPTIONS

- Adjustable Height Stand

DIMENSIONS

LxWxH not including Feet
- 21-5/8" x 14" x 14-1/8"
