Comments:

Inspected, tested and calibrated.

This unit has been tested with Precision Solutions, Inc. standards which are traceable to the International System of Units (SI) through NIST. The results reported are at the time of testing for the unit listed above. Calibration was performed in accordance with Precision Solutions, Inc.'s procedures. Calibration is in compliance with ISO/IEC 17025. This document shall not be reproduced, except in full, without the written approval of Precision Solutions, Inc. The combined measurement uncertainty is reported with a coverage factor of k=2, for a 95% confidence level. Unless otherwise specified by the customer, the unit under test was determined to be in or out of tolerance based upon the test measurement being within the simple acceptance range inclusive of lower and upper tolerance limits. Tolerance decisions are not further modified using guard bands or uncertainty.
